

OULU UNIVERSITY SCHOLARSHIP FOUNDATION CALL FOR GRANTS 2016

The 2016 call for applying grants from the Oulu University Scholarship Foundation is open during 1 April – 22 April 2016. The application form can be found from the following address:
<https://valli oulu.fi/saatio>.

The Oulu University Scholarship Foundation supports mainly full-time work on a doctoral thesis within four years. However, part-time work on a doctoral thesis is also supported. The Foundation will only allocate personal grants for doctoral thesis research. Travel grants are not funded. Grants are typically from 3 000 to 5 000 euros.

The prerequisite for applying for grants is a doctoral training plan approved by the University of Oulu Graduate School (UniOGS) for people who have started in 2012 or later. For those having started earlier, some other approved plan is required, and the applicant must be registered at UniOGS.

The first grant may be allocated for a fast start after one year from starting the research, and another after approximately one year before completing the doctoral thesis. The Board of the Foundation will hear the University of Oulu Graduate School (UniOGS) and the faculties when reviewing the applications.

Only applications that have been delivered in accordance with the instructions, together with the attachments both in the web service and as a signed printout, will be taken into consideration. The factual contents must be uniform.

Printouts are to be delivered to address:

Oulu University Scholarship Foundation
P.O.Box 8000
90014 University of Oulu
Street Address: Pentti Kaiteran katu 1, 90570 Oulu

More detailed instructions can be found at <https://valli oulu.fi/saatio>

Required attachments for the application:

- Printout from Oodi (Oodi is a register for student and study information at the University of Oulu. It includes information e.g. on students, their study rights, annual registrations, courses and completed credits.)
- List of previous grants for the preparation of the thesis
- One page summary of the research plan
- Statement by the supervisor of the thesis
- CV and list of publications including publications intended to be included in the thesis
